

QUEEN WILLIAMS

I respect, care, and support all around me. I am only seen, not heard. I am very different from all. I don't show off new shoes, clothes, or phones. I am positive most days, but not every day. I do the best I can to succeed in my goals.

BLACK LIVES MATTER: HOW CAN WE MAKE IT BETTER?

Yeah, black lives do matter.
We have emotions.
Our communities need less commotion.

We need support, guidance, respect.
Don't you think that's a good notion?

First, police need to do their real job,
'cuz every time they don't,
black folks start a big mob.

Police need to stop killing us like flies in the skies
and treat us like people they don't despise.

Black lives matter. This has been going on for how long?
When is it going to be heard?
In 500 years, still singing the anthem song.

People keep saying black lives matter, but
y'all killing each other every day.
So how is #blacklivesmatter going to work
if you buying a gun to show kids at school or work?

Black lives matter.
How can we make it better?
